*2017-2020 recalculated in 2021 to account for divestments and changes to business

*2017 represents the base year for Gap Inc.'s Climate goals and Science-Based Targets

**Our Scope 1, 2, and Scope 3 category 6 and 14 emissions have been verified by Lloyd's Register Quality Assurance. See our [Assurance Statements](#).

***In 2022, we received more accurate data representing our Scope 3 upstream transportation emissions from FY 2021, and downstream transportation data from FY 2020 and FY 2021. These figures are restated here.

****In 2022, we improved our estimation process for category 12 (end of life treatment of sold products) by including product fiber weights in the calculation – resulting in increased estimated emissions year over year
